**AP Facts and Figures Assignment**

Using the two school supported academic sites, CIA Factbook and World Geography (ABC-CLIO) identify 6 statistical categories to rank and analyze the 6 case studies (Great Britain/UK, Russia, China, Mexico, Iran, and Nigeria) in terms of world status. Students must identify the statistical category and also explain what exactly the statistics are measuring. Students must explain their personal value of using this statistical measure to examine the 6 case studies. Finally students need to provide personal analysis of what the statistics identified with the 6 case studies.
